A Vibrant Range of Colours

## 1. One Step Marbling Starter Kit

07ED39866 **Kit 115 kr**

A simple but fascinating way of creating highly original patterned papers for use as wrapping paper, wall decorations etc. Marbling works by floating oil based colours on water in a large shallow tray where the colours are gently intermixed by blowing, combing or swirling. Sheets of paper, card or fabric are placed on the surface to absorb the patterns and are then rinsed and left to dry. Since marbling patterns are highly individual and constantly change, children get excitement from choosing their moment to place the paper in the tray. Each starter kit contains six 15ml dropper top bottles, one each of Yellow, Red, Orange, Blue, Green and Purple. Complete with instruction leaflet.

## 2. Easy Wash Superbuy Marbling Pack

07ED47875 6x25ml **Pack of 6 115 kr**

Six 30ml bottles of washable marbling inks which is specially formulated for easy removal from hands. Protective clothing should always be worn as ink may be difficult to remove from clothing!

## 3. Berol Marbling Inks

07EJ71430 **Pack of 6 172 kr**

A great way to brighten up paper and thin card.

## 4. Marbling Tray

07EJ71432 **Each 182 kr**

Created for mixing inks and water.  
Exterior dimensions: 600 x 400 x 50mm.

## 5. Marbling Combs

07EJ71431 **Pack of 4 52 kr**

Use these combs to mix the ink in the water to create spectacular effects.

great idea...

Why not let every child create their own Marbling art work then join them together to make a classroom display?
